Grooming Services

Grooming isn't a luxury; it's a requirement! Regular bathing, brushing, and trimming keep your dog's fur in beautiful shape. The GTTD groomers are your pet's first line of defense against painful matting, parasites, skin irritations and infections. Any trouble spots we find will be reported to you, and veterinary care will be recommended if necessary.

AT GTTD, we want grooming to be a comfortable experience and we take extra time to keep your dog or cat calm and relaxed during the grooming process. We want your pet to build trust with our groomers. We love to see those tails wagging when it's time to take a bath!
